OBJECTIVE

I am seeking a career to lead me towards management in a software engineering or digital creative environment that will continually challenge my problem solving and analytical skills across a broad spectrum of technologies.

EXPERIENCES

SENIOR SOFTWARE ENGINEER, Sunway Technology Group, [Jan *2017 - Now*]
As a Senior Software Engineer for e-Procurement platform, my daily activities are: design, develop and implement an integration between e-Procurement environment and ERP environments for 3-way Invoice matching. Leveraging knowledge sharing by providing a coaching and mentorship for teammates to improve their skillset.

APPLICATION DEVELOPER, Logistics Consulting Asia [*Sep 2015 - Jan 2017*]
Enhance & Support Logistics and Supply Management Software for Distributor Companies in the regions of Asia.
It consists of Distributor Management System, Control Panel and Business Intelligence that implement Distributed System, Application Programing Interface, Complex Synchronization Automation, Extract Transform Load (ETL) for Business Intelligence, using full stack technologies such as Bash Script, PHP, Python, Clojure, BackboneJS, Pentaho Data Integration, javascript, etc.

LEAD DEVELOPER, CloudApps Technology, Sdn, Bhd [*Mar 2015 - Aug 2015*]
As a Technical Lead Developer, lead the team to develop cloud-based accounting application (www.simpankira.com) using laravel framework. Develop the core modules of Accounting Modules using repository pattern and with multitenancy.

LEAD DEVELOPER, ewakooLabs [*Jul 2012 - Dec 2014*]
Develop and maintain various projects. Help customers to design & develop software based on their requirements and problems they need to fix. Provide documentation, hands on training, maintenance and support.

BRANCH MANAGER, Jakarta Intensive Learning Centre [*Jul 2010 - Jun 2012*]
Manage company's resources to run learning centre business. Supervise employees and tutors, have a meeting with clients, have a meeting and consultation with parents.

PROGRAMMER, Jakarta Intensive Learning Centre [Oct *2007 - Jun 2010*]
Develop and maintain applications for learning centre. Setup IT infrascructure, provide end user training, on-site support, etc. Almost of the development processes using and produce Desktop Application.

EDUCATION

BACHELOR DEGREE, Hasanuddin University *2010 - 2011*]
INFORMATION TECHNOLOGY. Project : Web Based CRM (Customer Relationship Management) using MVC framework.
GPA : 3.53

DIPLOMA DEGREE, Hasanuddin University *2004 - 2007*]
ELECTRICAL ENGINEERING. Project : Development of Desktop based Application for Supporting Walk-On Registration for new customers of Telkom Flexy Makassar.
GPA : 3.63
